TECHNICAL SKILLS

Backend & data: Express, Spring, GraphQL, PostgreSQL, Supabase, Drizzle, MongoDB.

Frontend: Angular, React, Next.js, Ionic, Tailwind.

Languages: TypeScript, Kotlin, Java, SQL, HTML, CSS/SCSS, C++.

Tools: Git, Docker, Jira, Figma, $\LaTeX$.

WORK EXPERIENCE

Yokomitsu Uruguay

Full Stack Software Engineer

JUL. 2026 - PRESENT

MONTEVIDEO, URUGUAY

- Built a Next.js auto-parts store and API backed by PostgreSQL for a catalog of more than 4,500 products. It includes vehicle fitment search, orders, promotions, and incoming stock dates.
- Created role-based admin tools for catalog, customer, order, and shipment management, including CSV and image imports, and set up deployments to a VPS with GitHub Actions.

UKG

Full Stack Software Engineer

AUG. 2023 - DEC. 2025

MONTEVIDEO, URUGUAY (HYBRID)

- Consolidated six Java Spring Boot microservices into one Kotlin backend, reducing maintenance overhead and improving observability.
- Maintained the GraphQL layer over the Kotlin backend, including the schemas and resolvers used by client applications. This kept clients separate from the underlying services.
- Reduced load time by around 200ms in high-traffic Angular screens by cutting unnecessary change detection and network requests.
- Ran three Angular workshops for interns and teammates, covering framework fundamentals, architecture patterns, and team conventions.
- Migrated outdated Angular components to the latest internal Ionic-based library and removed deprecated dependencies.
- Added reusable components, variants, and documentation to the internal design library.

UKG

Full Stack Software Engineer Intern

APR. 2023 - JUL. 2023

MONTEVIDEO, URUGUAY (HYBRID)

Switch Software

Jr. Software Engineer

AUG. 2022 - NOV. 2022

MONTEVIDEO, URUGUAY (HYBRID)

- Implemented production features in applications handed over by other teams and performed controlled MySQL updates and maintenance.

Tata Consultancy Services

Intern & Jr. Software Engineer

SEP. 2020 - AUG. 2021

REMOTE

- Worked on internal Angular projects and used UiPath to automate user flows for regression testing.

EDUCATION

Bachelor's Degree in Computer Science

Universidad de la Empresa

MAR. 2021 - PRESENT

MONTEVIDEO, URUGUAY

Technological Baccalaureate in Computer Science

Instituto Educativo el Pinar

MAR. 2017 - NOV. 2019

CANELONES, URUGUAY

LANGUAGES

English: C1 Advanced | *Cambridge*

Uruguayan and Spanish citizenship - eligible for remote work in the EU without sponsorship
